Preface

The Public Accounts of Alberta are prepared in accordance with the *Financial Administration Act* and the *Fiscal Management Act*. The Public Accounts consist of the annual report of the Government of Alberta and the annual reports of each of the 19 ministries.

The annual report of the Government of Alberta contains ministers' accountability statements, the consolidated financial statements of the province and *Measuring Up* report, which compares actual performance results to desired results set out in the government's strategic plan.

On December 6, 2013, the government announced new ministry structures. The 2013-14 ministry annual reports and financial statements have been prepared based on the new ministry structure.

This annual report of the Ministry of Service Alberta contains the Minister's accountability statement, the audited financial statements of the Ministry and a comparison of actual performance results to desired results set out in the Ministry business plan. This Ministry annual report also includes other financial information as required by the *Financial Administration Act* and *Fiscal Management Act*, either as separate reports or as a part of the financial statements, to the extent that the Ministry has anything to report.

Minister's Accountability Statement

The Ministry's annual report for the year ended March 31, 2014, was prepared under my direction in accordance with the *Fiscal Management Act* and the government's accounting policies. All of the government's policy decisions as at June 6, 2014 with material economic or fiscal implications of which I am aware have been considered in the preparation of this report.

Message from the Minister

At Service Alberta, we have been hard at work modernizing the way we do business. Our goal is to provide the services citizens need at different stages in their lives in innovative and more convenient ways. I am pleased to report on a year of progress and accomplishment in 2013-14 that provided Albertans with even greater service and accountability.

Consumer protection is an important part of what we do. To better protect condominium owners, in 2013-14, we consulted with Albertans on the *Condominium Property Act*. To help homeowners rebuild in the post-flood, we canvassed door-to-door and delivered presentations and information sessions about prepaid contractors, home inspectors and residential tenancies.

We were proud to honour our military service men and women by introducing a new specialty licence plate, the Support Our Troops plate. A percentage of the revenue will go to the Support the Troops Foundation to help members of the Armed Forces and their families.

Evolving technology helps Service Alberta provide services in new ways. For example, in 2013-14, we launched the Open Data Portal to provide a single access point for all publicly available data collected by the provincial government.

To help our government deliver a new level of openness and accountability, we created the new salary and severance disclosure policy and website. We also consulted with Albertans as we began a review of the *Freedom of Information and Protection of Privacy Act*, known as FOIP, to keep it responsive to Albertans' expectations and needs.

Service Alberta plays a key role in driving innovation and modernization across the provincial government. I am confident this Ministry and its dedicated employees will continue to show leadership in delivering services more effectively and efficiently, in ways that best fit Albertans' lifestyles.

Management's Responsibility for Reporting

The executives of the Ministry have the primary responsibility and accountability for the Ministry. Collectively, the executives ensure the Ministry complies with all relevant legislation, regulations and policies.

Ministry business plans, annual reports, performance results and the supporting management information are integral to the government's fiscal and strategic plan, annual report, quarterly reports and other financial and performance reporting.

Responsibility for the integrity and objectivity of the financial statements and performance results for the Ministry rests with the Minister of Service Alberta. Under the direction of the Minister, I oversee the preparation of the Ministry's annual report, including financial statements and performance results. The financial statements and the performance results, of necessity, include amounts that are based on estimates and judgments. The financial statements are prepared in accordance with Canadian public sector accounting standards. The performance measures are prepared in accordance with the following criteria:

- Reliability – information agrees with underlying data and the sources used to prepare it.
- Understandability and Comparability – current results are presented clearly in accordance with the stated methodology and are comparable with previous results.
- Completeness – performance measures and targets match those included in Budget 2013.

As Deputy Minister, in addition to program responsibilities, I am responsible for the Ministry's financial administration and reporting functions. The Ministry maintains systems of financial management and internal control which give consideration to costs, benefits, and risks that are designed to:

- provide reasonable assurance that transactions are properly authorized, executed in accordance with prescribed legislation and regulations, and properly recorded so as to maintain accountability of public money;
- provide information to manage and report on performance;
- safeguard the assets and properties of the Province under Ministry administration;
- provide Executive Council, the President of Treasury Board, the Minister of Finance and the Minister of Service Alberta information needed to fulfill their responsibilities; and
- facilitate preparation of ministry business plans and annual reports required under the *Fiscal Management Act*.

In fulfilling my responsibilities for the Ministry, I have relied, as necessary, on the executives within the Ministry.

Review Engagement Report

To the Members of the Legislative Assembly

I have reviewed the performance measure identified as reviewed by the Office of the Auditor General in the Ministry of Service Alberta's Annual Report 2013-2014. The reviewed performance measure is the responsibility of the ministry and is prepared based on the following criteria:

- *Reliability* - The information used in applying performance measure methodology agrees with underlying source data for the current and prior years' results.
- *Understandability* - The performance measure methodology and results are presented clearly.
- *Comparability* - The methodology for performance measure preparation are applied consistently for the current and prior years' results.
- *Completeness* - The goal, performance measure and related target match those included in the ministry's budget 2013.

My review was made in accordance with Canadian generally accepted standards for review engagements and, accordingly, consisted primarily of enquiry, analytical procedures and discussion related to information supplied to me by the ministry.

A review does not constitute an audit and, consequently, I do not express an audit opinion on the performance measure. Further, my review was not designed to assess the relevance and sufficiency of the reviewed performance measure in demonstrating ministry progress towards the related goal.

Based on my review, nothing has come to my attention that causes me to believe that the performance measure identified as reviewed by the Office of the Auditor General in the ministry's annual report 2013-2014 is not, in all material respects, presented in accordance with the criteria of reliability, understandability, comparability and completeness as described above.

I draw attention to results analysis discussion under goal 1 for measure 1.b Comparison of Alberta's fees to other jurisdictions. The results for Renew registration on a Honda Civic and Renew a driver's license include all associated charges that must be paid by the consumer to acquire the services. This includes the jurisdictional base fees, taxes and service charges; Quebec includes a mandatory bodily injury insurance premium in both the vehicle renewal fee and the driver's license renewal fee.

► 1.B.1 COMPARISON OF ALBERTA'S FEES TO OTHER JURISDICTIONS TO:

- RENEW REGISTRATION ON A HONDA CIVIC
- RENEW A DRIVER'S LICENCE

DESCRIPTION

Service Alberta works to ensure Alberta's registry fee structure remains competitive with other Canadian jurisdictions. One area of comparison is the review of Alberta motor vehicle fees, where the cost of registering a vehicle and renewing a driver's licence were compared on a standardized national basis. The target is to have Alberta's fees* remain competitive with the national average.

**Please note that "fees" in this analysis represents all associated charges that must be paid by the consumer to acquire the service. This includes all jurisdictional base fees, taxes and service charges; Quebec includes a mandatory bodily injury insurance premium in both the vehicle renewal fee and driver's licence renewal fee.*

RESULTS

The results of the fee comparison indicated the target has been met as Alberta's fees for these products are competitive with the national average.

- The vehicle registration fee for a Honda Civic: 16 per cent below the national average. The fee was 14 per cent below in 2012-13.
- The driver's licence renewal fee: 27 per cent below the national average. The fee was 26 per cent below in 2012-13.

*Survey was standardized for comparative purposes to represent the five-year renewal fee for a driver's licence with no demerits (includes all associated charges) as this represents the renewal option chosen by the majority of Albertans.

ANALYSIS

The result of the fee comparisons are higher than the previous year and demonstrates Alberta's fees for motor vehicle licensing and registration remain competitive in comparison to other Canadian jurisdictions.

REGISTRY SERVICES THAT ARE EFFICIENT AND CONVENIENT FOR ALBERTANS

THIS GOAL REFLECTS THE MINISTRY'S COMMITMENT TO PROVIDE SECURE, ACCESSIBLE, ACCURATE AND COMPETITIVELY PRICED SERVICES TO ALBERTANS.

► 1.B.2 COMPARISON OF ALBERTA'S FEES TO OTHER JURISDICTIONS TO OBTAIN A:

**Please note that "fees" in this analysis represents all associated charges that must be paid by the consumer to acquire the service. This includes all provincial/territorial government fees, taxes and service charges.*

RESULTS

- The Collection Agency Licence fee in Alberta is 42 per cent below the national average. The fee was 42 per cent below in 2012–13.

Service Index*	88%	88%

Source: Ivmet, Call Centre Satisfaction Survey

*The service index is the respondent experience across five service attributes: courteousness, knowledge, effort, wait time, and ease of access.

ANALYSIS

At 88 per cent, the majority of clients are satisfied with the attributes of the service provided by the contact centre (310-000 related). However, a change in scale was implemented to provide consistency with the rating scales used in other call centre performance measures. Consequently, this change in scale led to a disparity between the result and the target.

DESCRIPTION

The Ministry provides tools, advice and support to assist government public bodies in successfully handling their *Freedom of Information and Protection of Privacy Act* (FOIP) requests. In order to track the compliance of government public bodies with the access provisions of FOIP, the percentage of FOIP requests completed on a timely basis (within legislative guidelines) is assessed.

RESULTS

Due to the timing of data availability, 2013-14 results are not yet available. As such, 2012-13 results are presented. In 2012-13, 95 per cent of FOIP requests were completed within 60 days.

This will make it easier for co-ops to expand beyond Alberta's borders and for British Columbia and Saskatchewan co-ops to do business in Alberta.

► 3.A CALL CENTRE SERVICE INDEX - CONSUMER RELATED (BASED ON COURTEOUSNESS, KNOWLEDGE, EFFORT, WAIT TIME AND EASE OF ACCESS)

DESCRIPTION

Client satisfaction survey regarding services provided through the Ministry Contact Centre (consumer related) across five service attributes: courteousness, knowledge, effort, wait time, and ease of access.

ANALYSIS

Client satisfaction with the services provided by the contact centre (consumer related) is high, with 90 per cent indicating satisfaction with the attributes of the service. Despite the increase in the complexity of consumer issues and the corresponding demand for information related to those issues, the result nearly meets the target and demonstrates the Ministry's commitment to provide quality government services.

GOAL 4:

CORE STANDARD SHARED SERVICES THAT FACILITATE GOVERNMENT PROGRAM AND SERVICE DELIVERY

THIS GOAL REFLECTS THE MINISTRY'S ROLE IN PROVIDING CORE STANDARD SHARED SERVICES TO MINISTRIES ACROSS GOVERNMENT IN THE AREAS OF BUSINESS, FINANCIAL, PAY AND BENEFITS, INFORMATION TECHNOLOGY SERVICES, AND THE PROCUREMENT OF GOVERNMENT VEHICLES.

► ACTIVITIES/ACHIEVEMENTS

- Modernized government's fleet management information system, resulting in a reduction of fleet card administration costs and a significantly improved ability for both Service Alberta and our customer ministries to more closely manage and cost-effectively maintain the government's \$100 million investment in vehicle assets.
- Completed the rollout of modern, online systems enabling GoA units to complete their own orders and changes of mobile wireless products and services. This innovative approach relied heavily on vendors' investment resulting in significantly lower implementation costs to the government.
- The Final Mile Rural Connectivity Initiative, a joint mandate between Service Alberta and Agriculture and Rural Development, increased access to high-speed Internet for rural Albertans in order to improve their opportunities for communication, education and skill training, telemedicine, social and professional networking, public services and public safety and entertainment.

► 4.A PERCENTAGE OF INVOICES PAID ELECTRONICALLY

DESCRIPTION

Measuring the percentage of invoices paid electronically relates to improving government efficiency. Electronic invoicing streamlines payment processes and gains efficiencies within the Government of Alberta and across ministries. The convenience of processing invoices electronically is expected to ultimately increase the efficiency of administrative payment tasks throughout government.

RESULTS

In 2013-14, 82 per cent of invoices were paid electronically.

Percentage of Invoices	81%	82%	82%

Source: Service Alberta, Shared Services Division, Electronic Payment System, Exclaim! and IMAGIS AP Reporting

ANALYSIS

The percentage of invoices paid electronically remains high at 82 per cent. While the result is below 90 per cent, the target is a stretch target the Ministry is working towards. As such, further progress is expected for 2014-15, as the Ministry continues to promote the use of electronic payments.

GOAL 4:

CORE STANDARD SHARED SERVICES THAT FACILITATE GOVERNMENT PROGRAM AND SERVICE DELIVERY

THIS GOAL REFLECTS THE MINISTRY'S ROLE IN PROVIDING CORE STANDARD SHARED SERVICES TO MINISTRIES ACROSS GOVERNMENT IN THE AREAS OF BUSINESS, FINANCIAL, PAY AND BENEFITS, INFORMATION TECHNOLOGY SERVICES, AND THE PROCUREMENT OF GOVERNMENT VEHICLES.

RESULTS

The majority or 74 per cent of respondents indicated satisfaction with services received from Service Alberta. The 2013-14 target was 80 per cent.

ANALYSIS

At 74 per cent satisfaction, the majority of respondents are satisfied with services received from Service Alberta. This result is comparable to the previous year and is slightly below the 80 per cent target.

PERFORMANCE MEASURES - SOURCE AND METHODOLOGY

► 1.A CALL CENTRE SERVICE INDEX – REGISTRY RELATED (BASED ON COURTEOUSNESS, KNOWLEDGE, EFFORT, WAIT TIME AND EASE OF ACCESS)

A satisfaction survey of Albertans who contacted the contact centre (registry related) was conducted in February 2014. Clients were asked to complete a survey following completion of their call. Those who agreed to participate were directed to an automated system to complete the survey, which is managed by Ivrnet, a third-party consultant.

The survey prompts respondents to answer with either, “Unacceptable”, “Poor”, “Fair”, “Good”, “Excellent” or “No Opinion” across five service attributes: courteousness, knowledge, effort, wait time, and ease of access. Those who responded with “Good” or “Excellent” were defined as being satisfied with that particular attribute of the service and counted towards the service index rating.

The rating is derived by taking the percentage of satisfied responses against the total.

Total annual sample and margin of error at the 95 per cent confidence interval for the five service attributes is as follows:

Courtesy: 433 interviews with results being accurate to within ± 4.7 per cent.

Knowledge: 424 interviews with results being accurate to within ± 4.8 per cent.

Effort: 413 interviews with results being accurate to within ± 4.8 per cent.

Wait time: 406 interviews with results being accurate to within ± 4.9 per cent.

Ease of access: 399 interviews with results being accurate to within ± 4.8 per cent.

► 1.B.1 COMPARISON OF ALBERTA’S FEES TO OTHER JURISDICTIONS TO:

- RENEW REGISTRATION ON A HONDA CIVIC
- RENEW A DRIVER’S LICENCE

Ministry staff contacted provincial and territorial governments across Canada to collect information on fees for vehicle registrations and driver’s licences. To facilitate a reliable and meaningful comparative analysis, two key products were identified for the Motor Vehicles Registry: vehicle registration renewal and driver’s licence renewal. These two products are the most common transactions, are available in a similar form in all Canadian jurisdictions and are the most familiar to the general public. The Honda Civic was chosen as the vehicle for comparison.

Since many jurisdictions use formulas (e.g., weight of a vehicle), these registrations were put into common scenarios to standardize comparisons across all provinces.

- Vehicle registration: fee associated with the renewal of a Honda Civic weighing 1,250 kilograms in an urban area (includes jurisdictional base fees, taxes, service charges and premiums). Note: Nunavut’s reported fee is based on a rate that excludes access to highways.
- Driver’s licence: the renewal fee to renew a driver’s licence with no demerits, based on a standard five year renewal (includes jurisdictional base fees, taxes, service charges and premiums). A five-year renewal period was selected, as this is a common renewal timeframe selected by Albertans.

PERFORMANCE MEASURES - SOURCE AND METHODOLOGY

► 1.B.2 COMPARISON OF ALBERTA'S FEES TO OTHER JURISDICTIONS TO OBTAIN A:

- **COLLECTION AGENCY LICENCE**
- **DIRECT SELLING LICENCE**

Ministry staff contacted provincial and territorial government agencies across Canada to collect information on the fees charged for various business licences. It is important to note that Alberta charges a single, flat fee for each licence being compared. To ensure a meaningful comparison, the following assumptions were made:

Collection agency licence

Comparisons were made against the minimum business fee charged in the province or territory for either a new licence or a renewal, whichever was lower, regardless of company size.

Direct selling licence

Comparisons were made against the minimum fee charged to sole proprietors, partnerships or corporations excluding additional charges for branch or satellite offices. Where the fee was for a multi-year period, comparisons were made using the annual equivalent (e.g., \$200 for a two-year licence would be \$100 on an annual basis).

► 1.C PERCENTAGE OF ALBERTANS WHO ARE SATISFIED WITH TIMELINESS OF GOVERNMENT OF ALBERTA SERVICES AND INFORMATION

This research was not performed in 2013-14.

The last time this research was undertaken was February to March 2013 when Ipsos Reid, an independent research contractor, conducted a random telephone survey of Albertans. Total annual sample for the survey was 705 interviews with results being accurate to within ± 3.7 per cent, at the 95 per cent confidence interval.

Interviews were stratified by region – i.e., the City of Edmonton, the City of Calgary, Smaller Cities North, Smaller Cities South, Rural North and Rural South. Quotas were established to ensure a reliable sample size within each region for regional analysis. The data was weighted to ensure the overall sample's regional and age/gender composition reflected that of the actual Alberta population aged 18 years and up according to 2011 Canadian Census data.

Respondents were presented with a list of actual Government of Alberta services or information and asked which they had accessed or tried to access in the past six months. Those who accessed one or more services or information on the list in person, by telephone, on the Internet or by mail/fax were asked to rate their satisfaction with their current ability to access Government of Alberta services and information, overall, regardless of means.

The survey employs a seven-point satisfaction scale, where one is very dissatisfied, four is neutral and seven is very satisfied. Respondents were asked to rate their overall satisfaction with the services they received. A satisfied respondent is defined as providing a five, six or seven on the seven-point scale, while dissatisfied is one, two or three.

► 2.C PERCENTAGE OF FOIP REQUESTS COMPLETED BY GOVERNMENT PUBLIC BODIES WITHIN 60 DAYS OR LESS

All public bodies, including ministries, Executive Council, the Legislative Assembly Office, Office of the Auditor General, the Ombudsman, the Chief Electoral Officer, the Ethics Commissioner, the Information and Privacy Commissioner and agencies, boards and commissions designated in the Freedom of Information and Protection of Privacy (FOIP) Regulation submitted quarterly statistical reports of their FOIP requests for 2012-13.

The public bodies track FOIP requests manually or use FOIPNet, a web-based tracking application. The number of requests reported as completed in 30 days or less and 31 to 60 days are combined and reported against the total number of requests completed.

PERFORMANCE MEASURES - SOURCE AND METHODOLOGY

Invoices for the Electronic Payment System, ExClaim, procurement cards and IMAGIS Recurring Vouchers are calculated as follows:

Electronic Payment System

Invoices are counted by the number of active Vendor Account Codes that have charges against them. This is counted on a monthly basis as each vendor sends an electronic feed monthly that has Vendor Account Codes with charges.

ExClaim

One paid electronic claim is counted as one invoice. Claims can have a zero dollar amount, created from a claim that is completely prepaid.

Procurement Card

Each time a card is swiped, it is considered one transaction or one invoice.

Financial Highlights

CHART 1: 2013-14 REVENUE BY SOURCE

(in millions)

In 2013-14, Service Alberta collected \$696.4 million in revenue.

- Ninety per cent (\$629.8 million) of the revenue was generated from sources external to the Government of Alberta, primarily related to fees and licences collected from the five major registries (motor vehicles, land titles, personal property, vital statistics and corporate registry). The Ministry utilizes a network of 226 agents located in 230 communities throughout the province to deliver the registry services, involving 9.7 million transactions. The transactions delivered by the registry agent network account for 57 per cent of the total registry transactions for 2013-14.

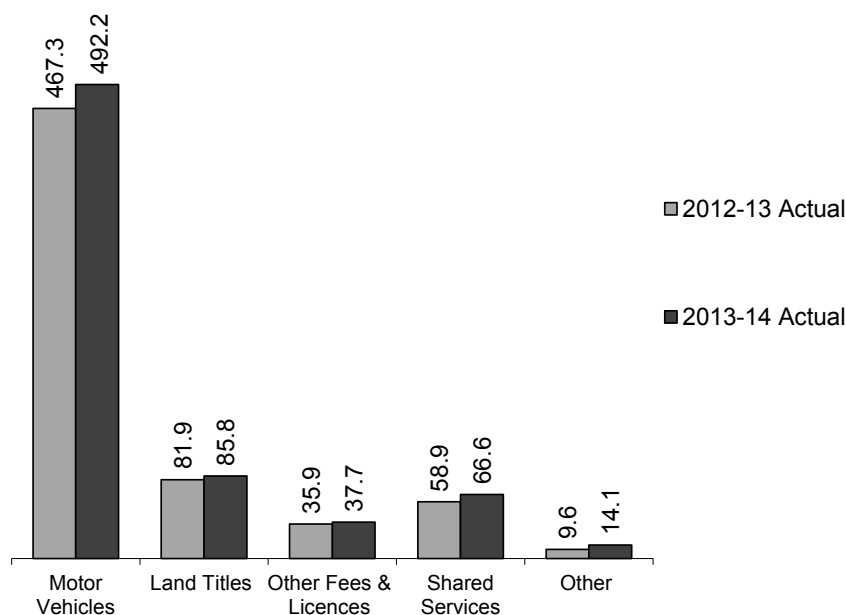

The amount of revenue collected is influenced by various factors such as the economic health of the province and changes in population. These factors affect the number of transactions and in some cases the amount of the fee charged.

- The remaining ten per cent (\$66.6 million) was from sources internal to government, primarily revenue received from other ministries to recover the cost of providing shared services.

Financial Highlights

CHART 2: COMPARISON OF 2013-14 TO 2012-13 REVENUE BY SOURCE

(in millions)

With the exception of Other Revenues, revenue increased from 2012-13 to 2013-14 in the order of 3 to 15 per cent. The most significant changes are in motor vehicles and shared services.

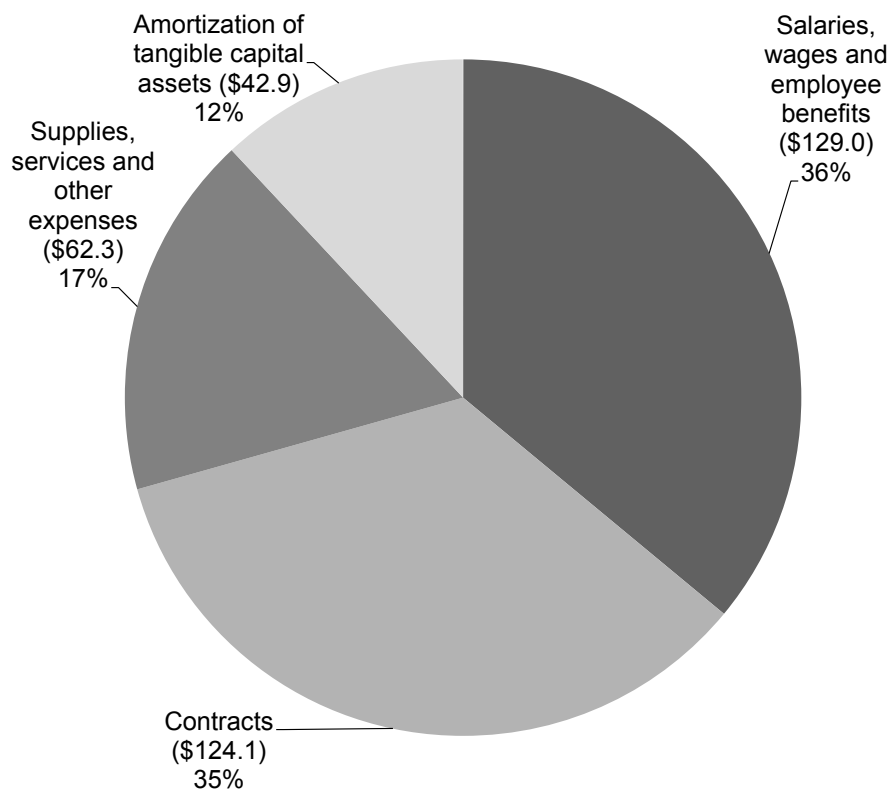

- Motor Vehicles account for 58 per cent of the increase (\$24.9 million), resulting from higher transaction volumes for commercial and passenger vehicle registrations and operator licences.
- The increase in shared services (\$7.7 million) is directly attributed to services provided to other departments for the provisioning of information technology infrastructure and services which support the delivery of programs to citizens by all ministries.

Alberta's registry fees have stayed competitive, remaining below the national average. Alberta's fees have remained consistent over last year. In comparison, three provinces experienced rate increases for driver's licences and vehicle registrations in 2013-14.

Financial Highlights

CHART 3: 2013-14 EXPENSE BY OBJECT

(in millions)

The allocation of expense by object changes when amortization is removed from Operating Expenses:

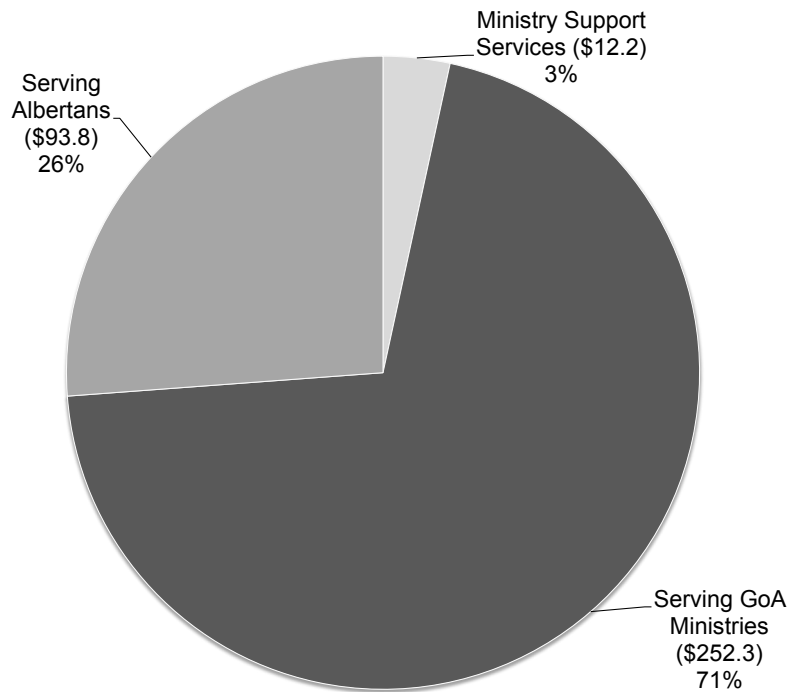

- 41 per cent for salaries, wages and employee benefits,
- 39 per cent for contracts, and
- 20 per cent for supplies, services and other expenses.

Amortization, which accounts for 12 per cent of Service Alberta's Operating Expense, is a non-cash expense which represents the depletion or use of a capital asset. Amortization can also be used as a proxy for the amount of capital investment required to maintain and replenish assets used by the Ministry in the delivery of its programs and the programs it supports, through its shared service initiatives.

Financial Highlights

CHART 4: 2013-14 INTERNAL VERSUS EXTERNAL SERVICES

(in millions)

Service Alberta's mission is to deliver citizen-centered services and information to the public and shared services to its partner ministries. Its core businesses are:

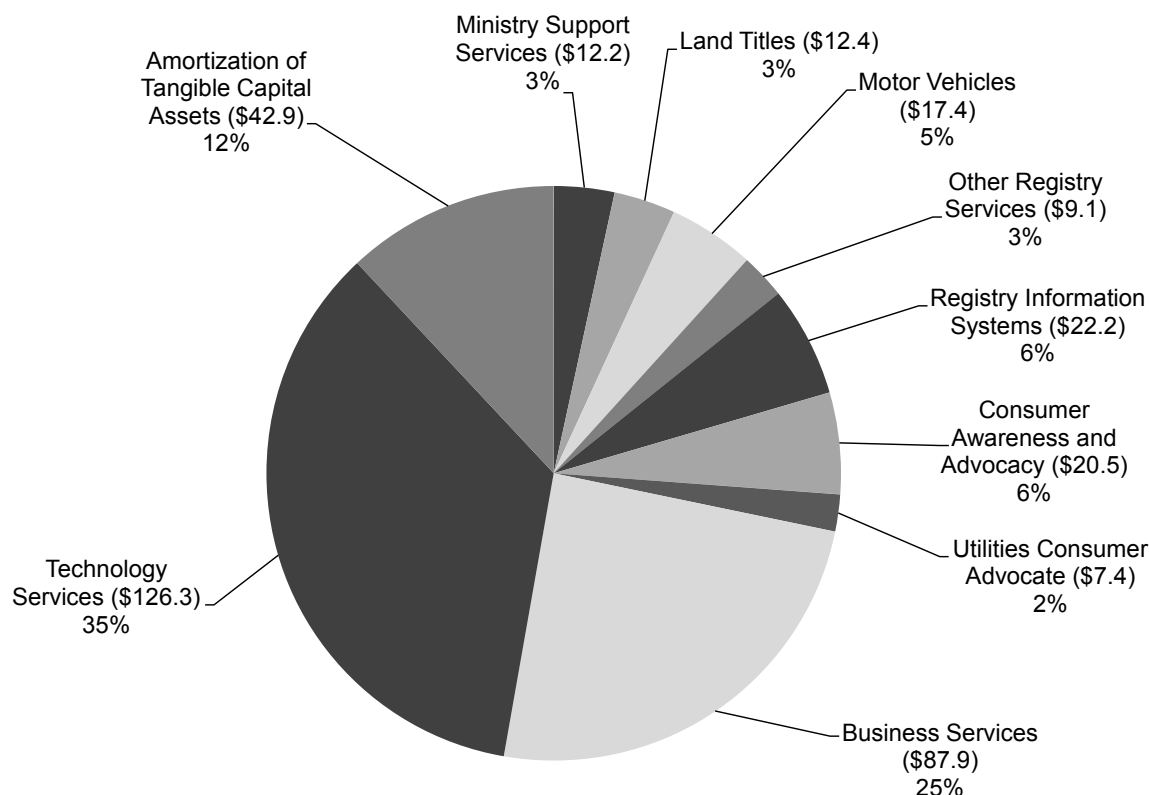

- Serving Albertans - providing services to Albertans including registering a life event, car, house, personal property or business, providing consumer protection programs, and freedom of information and privacy requests; and
- Serving Government Ministries - providing standardized shared services to government ministries in an efficient and effective manner.

Of the \$358.3 million in Operating Expense incurred in 2013-14, \$346.1 million (97.0 per cent) is directly related to the Ministries' core businesses. The remaining \$12.2 million (3.0 per cent) is for ministry support services such as minister's office, associate minister's office, deputy minister's office, corporate finance, human resources, communications and legal services, which support both core businesses.

Financial Highlights

CHART 5: 2013-14 EXPENSE BY PROGRAM

(in millions)

Seventy one per cent of the Ministry's operating expense (\$252.3 million) supports the provisioning of foundational shared services to partner ministries, which includes:

- \$93.5 million for technology operations and infrastructure, of which \$39.1 million is funded by revenues received from ministries;
- \$49.1 million for procurement and administration services, of which \$27.5 million is funded by revenues received from ministries for services such as mail and courier services, print services, fleet management, crown debt collections, and forms and imaging services;
- \$38.8 million for financial and employee services which includes, but is not limited to, administering pay and benefits for over 29,000 Alberta Public Sector employees, processing accounts payables, the management of accounts receivable and crown debt collections, billings and employee services;
- \$19.2 million for network services, which is predominantly for the provisioning of Alberta SuperNet;
- \$13.8 million for enterprise services, including several enterprise software licenses, the office of the corporate chief information officer and the corporate information security office; and

Ninety one per cent of the investment (\$34.3 million) was for the maintenance and replacement of the capital assets for which the Ministry has direct ownership. This portion of the investment equates to 6.1 per cent of the total cost of the Ministry's capital assets.

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained in my audits is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of the Ministry of Service Alberta as at March 31, 2014 and the results of its operations and its cash flows for the year then ended, in accordance with Canadian public sector accounting standards.

Notes to the Financial Statements

YEAR ENDED MARCH 31, 2014

NOTE 1

AUTHORITY AND PURPOSE

The Ministry of Service Alberta (the Ministry) operates under the authority of the *Government Organization Act*, Chapter G-10, Revised Statutes of Alberta 2000.

The Ministry delivers standardized business, financial and technology services to other ministries, enabling the government to act as one entity, and facilitating easy access to programs and services for other ministries to provide services to Albertans. It also delivers citizen-centred services and information to the public, touching the everyday lives of Albertans, including registering a life event, or vehicle; buying a house; starting a business; and supporting a fair market place through consumer awareness and protection.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES

These financial statements are prepared in accordance with Canadian public sector accounting standards.

(a) Reporting Entity

The reporting entity is the Ministry of Service Alberta for which the Minister of Service Alberta is accountable.

All departments of the Government of Alberta operate within the General Revenue Fund (the Fund). The Fund is administered by the President of Treasury Board and Minister of Finance.

All cash receipts of departments are deposited into the Fund and all cash disbursements made

by departments are paid from the Fund. Net Financing provided from (for) General Revenues is the difference between all cash receipts and all cash disbursements made.

(b) Basis of Financial Reporting

Revenues

All revenues are reported on the accrual basis of accounting. Cash received for which goods or services have not been provided by year end is recorded as deferred revenue.

The Ministry uses a network of agents located in communities throughout the province to deliver some of its Registry Services. These Registry Services include the issuance and renewal of drivers' licences; registrations of birth, marriage and death; land title searches and transfers; and registrations of corporations, vehicles, and liens. The registry agents collect and remit to the Ministry, the various fees charged by the province for each service type. The registry agent can also charge a transaction fee for each service provided. The Ministry reports only the revenues due to the province under Fees and Licences on the Statement of Operations.

Credit or Recovery

Credit or Recovery initiatives provide a basis for authorizing spending. Credits or Recoveries are shown in the details of the Government Estimates for a supply vote. If budgeted revenues are not fully realized, spending is reduced by an equivalent amount. If the actual Credit or Recovery amounts exceed budget, the Ministry may, with the approval of Treasury Board Committee, use the excess to fund additional expenses of the program. Schedule 2 discloses information on the Ministry's credit or recovery initiatives.

Notes to the Financial Statements

YEAR ENDED MARCH 31, 2014

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES

(continued)

Expenses

Directly Incurred

Directly incurred expenses are those costs the Ministry has primary responsibility and accountability for, as reflected in the Government's budget documents.

In addition to program operating expenses such as salaries, supplies, etc., directly incurred expenses also include:

- amortization of tangible capital assets;
- pension costs, which are the cost of employer contributions for current service of employees during the year; and
- valuation adjustments which include land titles registrar's assurance liabilities and changes in the valuation allowances used to reflect financial assets at their net recoverable or other appropriate value. Valuation adjustments also represent the change in management's estimate of future payments arising from obligations relating to doubtful accounts and vacation pay.

Incurred by Others

Services contributed by other entities in support of the Ministry operations are not recognized and are disclosed in Schedule 7 and allocated to programs in Schedule 8.

Cash

Cash includes cash in bank and cash in transit. It predominantly consists of monies collected by registry agents for deposit into the General Revenue Fund.

Assets

Financial assets are assets that could be used to discharge existing liabilities or finance future operations and are not for consumption in the normal course of operations. Financial assets of the Ministry are limited to financial claims, such as advances to and receivables from other organizations, employees and other individuals, as well as inventories held for resale. Assets acquired by right are not included. Tangible capital assets of the Ministry are recorded at historical cost and amortized on a straight-line basis over the estimated useful lives of the assets. The threshold for capitalizing new systems development is \$250,000 and the threshold for major systems enhancements is \$100,000. The threshold for all other tangible capital assets is \$5,000. Amortization is only charged if the tangible capital asset is in use.

Costs associated with business process reengineering and system development costs incurred during the preliminary stage of an information technology project are expensed. System development costs associated with the development and acquisition of software are capitalized. Capitalization of costs begins after the preliminary project stage and ends when the system application is completed and ready for its intended use.

Notes to the Financial Statements

YEAR ENDED MARCH 31, 2014

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES

(continued)

Liabilities

Liabilities are recorded to the extent that they represent present obligations as a result of events and transactions occurring prior to the end of fiscal year. The settlement of liabilities will result in the sacrifice of economic benefits in the future.

Net Assets/Net Liabilities

Net assets/net liabilities represent the difference between the carrying value of assets held by the Ministry and its liabilities.

Canadian Public Sector Accounting Standards require a “net debt” presentation for the statement of financial position in the summary financial statements of governments.

Net debt presentation reports the difference between financial assets and liabilities as “net debt” or “net financial assets” as an indicator of the future revenues required to pay for past transactions and events. The Ministry operates within the government reporting entity, and does not finance all its expenditures by independently raising revenues. Accordingly, these financial statements do not report a net debt indicator.

Measurement Uncertainty

(in thousands)

Measurement uncertainty exists when there is a variance between the recognized or disclosed amount and another reasonably possible amount. The allowance for doubtful accounts, recorded as \$298 (2013 - \$284) in these financial statements, is subject to measurement uncertainty. It is possible that the unrecoverable amount could be different from what was provided for.

Valuation of Financial Assets and Liabilities

Fair value is the amount of consideration agreed upon in an arm’s length transaction between knowledgeable, willing parties who are under no compulsion to act.

The fair values of cash, accounts receivable, inventories, accounts payable and accrued liabilities and deferred revenue are estimated to approximate their carrying values because of the short term nature of these instruments.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES

(c) 2013 Alberta Flooding

(in thousands)

The full recovery from the June 2013 flood in southern Alberta will take a number of years. The Province's flood recovery initiatives through its Disaster Recovery Program (DRP), provides financial assistance to impacted individuals, small businesses, municipalities, and government departments for uninsurable loss and damage. The DRP is administered and funded by the Alberta Emergency Management Agency of the Department of Municipal Affairs through the authority of the *Disaster Recovery Regulation*.

Also, the Province's flood recovery initiatives include non-disaster recovery programs (non-DRP) which are not eligible for funding under the Disaster Financial Assistance Arrangement with the Government of Canada. Costs associated with non-disaster recovery programs are recognized as they are incurred. These costs are net of recoveries from insurance and other third parties. The Ministry incurred a total of \$51 in non-DRP expense.

NOTE 11 CONTINGENT LIABILITIES

(in thousands)

The Ministry is involved in legal matters where damages are being sought. These matters may give rise to contingent liabilities.

Accruals have been made in specific instances where it is likely that losses will be incurred based on a reasonable estimate. At March 31, 2014, accruals totalling \$613 (2013: \$551) have been recorded as a liability. The total amount claimed for all likely claims is \$33,577 (2013: \$34,488). Included in the total likely claims are claims covered in whole or in part by the Alberta Risk Management Fund. The resulting liability, if any, from likely claims in excess of the amounts accrued is not determinable.

The department has been named in eighteen (2013: twenty) claims of which the outcome is not determinable. Of these claims, thirteen (2013: fifteen) have specified amounts totalling \$18,800 (2013: \$18,976). The remaining five (2013: five) claims have no amounts specified.

Included in the total claims, three claims totalling \$3,960 (2013: two claims totalling \$250) are covered in whole or in part by the Alberta Risk Management Fund. The resolution of indeterminable claims may result in a liability, if any, that may be significantly lower than the claimed amount.

	<u>\$ 9,000</u>	<u>\$ 8,212</u>	<u>\$ (788)</u>

(1) The Ministry receives revenue to recover the cost of providing standardized shared services.

(2) The Utilities Consumer Advocate represents the interests of residential, farm and small business consumers of electricity and natural gas. It influences utility regulations, policies and practices and informs consumers about electricity and natural gas issues.

Eighty per cent of its funding is received through the Balancing Pool (section 148 of the *Electric Utilities Act*) with a further twenty per cent from three provincial natural gas distributors (section 28.1 of the *Gas Utilities Act*). Funding is based on the actual amount expended during the year.

(3) The Residential Tenancy Dispute Resolution service offers landlords and tenants an alternative means of resolving disputes outside of court. The service is designed to be faster, less formal and less expensive than the courts.

(4) The provision of special reports and bulk data transfer of registry data information is recovered through third party agreements.

(5) Funding received from off-highway vehicle users is to be used to enhance the motor vehicles system to accept trail improvement fees.

(6) The Ministry receives revenue to replenish inventory for mail services.

(7) Shortfall is deducted from current year's authorized budget, as disclosed in Schedule 5 of the financial statements.
